

## Radon test results in Oregon, by ZIP code

(Created January 22, 2013)

Kassandra Lindsey, Tamara Linde, Hilary Whitney, Deborah Theisen, Selicity Icefire, Scott Burns

Portland State University, Dept. of Geology

Potential radon hazard is a combination of the maximum test result, the average test result, and the percentage of tests exceeding 4 pCi/L. ZIP codes with fewer than 10 test results were not categorized. Zip codes marked with a '\*' are assigned to post office boxes and are geographically undefined.

ZIP Code	City	Long term test results				Radon Potential	Short term test results				Radon Potential
		N	Max	Average	% > 4		N	Max	Average	% > 4
